PROFESSIONAL SUMMARY

React Developer with nearly 2 years of experience in developing responsive, scalable, and user-friendly web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and REST APIs. Experienced in building reusable UI components, implementing Role-Based Access Control (RBAC), integrating backend APIs, and improving application performance. Strong understanding of frontend development best practices, Agile methodology, debugging, and writing clean, maintainable code.

TECHNICAL SKILLS

Languages : JavaScript (ES6+), HTML5, CSS3

Frameworks/Libraries : React.js, React Router

State Management : React Hooks, Context API

API Integration : REST APIs, Fetch API, Axios

Tools : Git, GitHub, VS Code, npm, Vite

Backend : Node.js, MongoDB

PERSONAL PROJECTS

OTT Streaming Platform

Technologies: React.js, Vite, React Router, CSS

- Developed a responsive OTT platform inspired by popular streaming services.
- Implemented reusable UI components and client-side routing.
- Consumed JSON data to dynamically display movie content.
- Optimized application performance with lazy loading techniques.

E-Commerce Web Application

Technologies: React.js, Vite, React Router, Context API, CSS, REST API

- Developed a responsive e-commerce web application with a modern and user-friendly interface.
- Built reusable React components for product listing, product details, shopping cart, and checkout pages.
- Integrated REST APIs to fetch and display dynamic product data.
- Implemented product search, category filtering, sorting, and client-side routing for seamless navigation.
- Managed shopping cart functionality using Context API and optimized application performance for a smooth user experience.

ACADEMIC DATA

Madras Institute of Technology

B.E., Aeronautical Engineering | 2020-24

Green Park International School

High School | 2018-2020
